Fewer pains. More gains.

Complex printer controls drain valuable time and can impact your overall productivity. With the new Kyocera Evolution Series, the user interface has been totally redesigned to minimize confusion and maximize your capabilities, so that you enjoy more time for you and your business.

Meet the new user interface

With standard colors and easy to understand icons, carrying out tasks at the printer has never been easier.

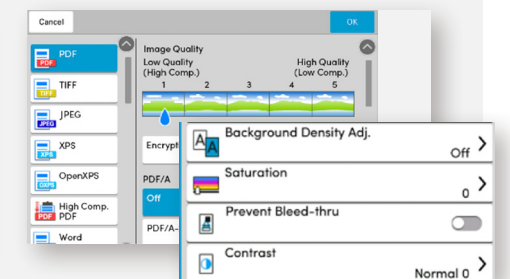

Simple

Standardized icons and graphics makes it easy to navigate the interface.

Intuitive

Emphasise important information and use gestures to select target items.

Efficient

Work quicker with less steps along with quick-switch settings.

Productivity You Can Rely On

You can't put a price on knowing your machine is always going to work. The Kyocera Evolution Series provides maximum performance.

Re-energize the way you work

High performance

Fast print and scan speeds for maximum efficiency.

Paper capacity

Less time filling paper trays means more time for quality work.

Digitization

Transform your workflows while pivoting to a paper-less workspace.

Durability

Long-lasting toners ensure professional quality that lasts.

Proven quality

Our devices have earned industry recognition for their reliability.

Optimal security

Enjoy some of the most advanced security technology on the market today.

Keypoint Intelligence – Buyers Lab (BLI) has judged a wide variety of Kyocera multi-functional printing devices to be “Reliable” and “Highly Recommended,” a globally-recognized seal of approval that demonstrates the quality of our devices.

Equip Your Business Against New Security Threats

With industry leading security protection, Kyocera's Evolution Series provide enhanced device and document security that address not only today's challenges, but the challenges of tomorrow as well. Security starts from the ground up and Kyocera ensures your data; your device and your network are always protected.

The Kyocera Evolution Series comes with a whole range of new security enhancements:

Secure/Multipurpose Internet Mail Extensions (S/MIME)

Improves the security of email encryption by providing security for authentication, message integrity, the use of digital signatures and privacy and data security.

Security Information and Event Management (SIEM)

Provides the ability to log security events that help monitor potential unauthorized operations like malware, intrusions and information leakage.

Simple Certificate Enrollment Protocol (SCEP)

Automatically ensures that the device has the latest security certificates and makes the issuing of digital certificates as effortless as possible.

TLS version 1.3 support

A faster, safer and more secure method of cryptography that encrypts data by providing secure communication between web browsers and servers.

Online Certificate Status Protocol/Certificate Revocation (OCSP/CRL)

Provides settings that can verify the validity of the certificates used in encrypted communications.

Kyocera's ISO/IEC-15408 Common Criteria certification shows our commitment to the highest standards of information security management.

Artificial Intelligence

Artificial Intelligence (AI) is transforming the world around us. Its impact can be felt in many aspects of our daily lives.

The Kyocera Evolution Series has integrated new AI functions to improve performance while enabling new capabilities to be added throughout its lifecycle so that you enjoy the best possible MFP devices at all times.

Join the Evolution

Enhanced user experience and improved productivity

When scanning, you can now emphasize the handwritten part of the document without changing the format or image. This is a particularly useful function for proofreading documents, questionnaires, documents, drawings, etc. where thin lines and small characters are common. It's also possible to overwrite handwritten characters and lines on the document, using a white filler to make them invisible.

Superior image quality

With the new AI functionalities, improving low resolution images is quick and easy.

The KX printer driver supports the 'Super Resolution' function that compares images with information on the internet, identifying and converting low-resolution images to professional quality. Not only do you get fantastic quality, but you also spend less time making manual changes.

Be lean. Be green.

Work more efficiently while reducing your carbon footprint.

At Kyocera, we are committed to doing the right thing as a human being. By going that extra mile, we provide the solutions that help boost the way you work while reducing your carbon footprint.

Increased
productivity

The new Evolution Series brings to the table reduced Typical Electricity Consumption (TEC) values without compromising on print speed or productivity. Meanwhile, energy consumption during sleep mode has been significantly reduced from 0.7W to 0.5W for both devices.

Being ISO 14001:2015 certified shows we don't just talk about acting sustainably.

Your Pains. Our Solutions.

With the Kyocera Evolution Series you get:
