PRISMA

JOB SUBMISSION SOLUTION FOR PRINT OPERATIONS

Offering your customers all they need—
and more—all while trying to stay ahead
of the competition can be an ongoing struggle.
So stop and ask yourself ...

- Is it a daily challenge to retain and attract customers and offer rapid turnaround for an increasing variety of print jobs?

- Are you faced with having the challenge to produce shorter print runs at competitive rates while still making a profit?

- Are you searching for a simple, effective, and secure job submission tool, without having to invest in complex, high-end software solutions?

PRISMAprepare Go GETS YOU STARTED

PRISMAprepare Go provides an easy-
to-use, powerful production job onboarding
pathway in the cloud that delivers practical
benefits to print providers and their customers.

ENHANCED CUSTOMER CONNECTION

From job submission to job processing and production, PRISMAprepare Go users can now offer their customers a fast, easy, and secure way to submit their print files and order instructions.

PREFLIGHT CHECK

With basic automated preflighting of incoming PDF files, PRISMAprepare Go alerts the print shop if any issues have been detected, allowing them to either accept the order or advise the customer if changes are needed.

INTUITIVE JOB PREPARATION

The user friendly job editor workspace with the "What You See Is What You Get" (WYSIWYG) previews can help you eliminate mistakes, reduce costly misprints, and save valuable time.

STREAMLINE YOUR JOB SUBMISSION AND WORKFLOW

PRISMAprepare Go is a job submission and preparation application that offers an off-the-shelf solution that can help increase the efficiency, flexibility, and profitability of smaller, in-house print centers and print service providers. This workflow application is both easy to use and configure, so your customers can get up and running quickly and efficiently.

A quick and secure way to submit print jobs, PRISMAprepare Go gives customers direct access to your print services via their own unique portal log-in, helping to grow your repeat-customer base. Start directly with a structured and professional approach to job submission. PRISMAprepare Go

offers the flexibility to extend functionality as your operation grows. This cloud-based application provides rapid job submission, preflighting, order management, imposition,[1] and streamlined production printing processes.

PRISMAprepare Go can help optimize your workflows with minimal training, thereby enabling more flexible and efficient personal service. Online customer communication provides opportunities to add more value and creativity to clients' jobs while reducing standard turnaround times, allowing you to focus on generating new business.

[1] Optional subscription license required.

EASY JOB ONBOARDING IN THE CLOUD

PRISMAprepare Go is a simple way to transition your production workflow to the cloud. It provides print buyers with an easy-to-use job submission and work-in-progress tracking method that requires minimal training. Print providers get added speed and efficiency when receiving customer jobs, checking for print readiness, selecting available press resources, applying basic press settings, and submitting the jobs to production.

RECEIVE

PRISMAprepare Go offers customers an easy way to submit jobs, track progress, and review purchase histories. It provides an orderly system for you to receive work, preflight incoming jobs, and ensure their readiness for production.

- ✓ Create a job onboarding portal in minutes! Just add a background, logo, and contact details, and you're ready to receive jobs from your customers.

- ✓ Onboard your customer's jobs, or invite them to send their files via email using a convenient hyperlink.

- ✓ Work in a structured way and give your customers the ability to track the status of their jobs.

- ✓ Automated preflight for all PDF files at intake.

1

2

PREPARE

PRISMAprepare helps streamline the preparation of various applications, including documents with staples and/or punch holes, folded documents, booklets, same-up and cut-and-stack[2] sheets, all with color previews.

- ✓ Verify page output formatting adjustments visually as they're made. Real "What You See Is What You Get" (WYSIWYG) document and sheet previews help minimize costly mistakes.

- ✓ Get real-time job settings using the PRISMAsync Media Catalog, imposition templates, and image color settings.

GO

PRISMAprepare Go has real-time access to your supported networked production presses. With a mind toward growth, it provides a beneficial first step in streamlining and organizing your production workflow.

- ✓ Prepare your jobs based on the available finishing devices in your fleet.

- ✓ Send jobs directly to PRISMAsync DocBoxes for easy reprints and quick, last-minute edits.

- ✓ Use PRISMAsync automated workflows.

- ✓ Using one web browser, you can easily switch between PRISMAprepare Go and PRISMAsync Remote Manager for additional benefits and functionalities.

JOB SUBMISSION HAS NEVER BEEN SO EASY

EASY TO USE FOR YOUR **CUSTOMERS**

With the simple drag-and-drop feature, customers can easily submit print-ready PDF files, job order instructions, and even native design documents if needed. This can be done with new jobs as well as those previously submitted, prior to them being accepted for production.

CLOUD-BASED

PRISMAprepare Go can help transition order initiation and job material submission from slower, less automated methods to the cloud, without specialized training or extensive IT provisions.

EASY TO USE FOR YOUR **OPERATORS**

PRISMAprepare Go provides operators one central log-in point to manage incoming orders. In addition to processing print orders submitted online, PRISMAprepare Go also supports walk-up business. When a customer walks in with a request, the operator simply creates a job in PRISMAprepare Go, uploads the files, and sends the customer an email with a link to the portal to monitor the job status.

The operators can easily monitor the status of all jobs in PRISMAprepare Go and prepare them for printing.

YOUR HOME IN THE CLOUD

PRISMA Home

PRISMAprepare Go helps you to easily transition your production workflow to the cloud—and it's readily available on PRISMA Home.

PRISMA Home is the portal at the heart of PRISMA cloud solutions. It provides reliable, unified access to all your supported PRISMA cloud-based applications and tools.

- ✓ One single log-in point.
- ✓ Configure and manage users and subscriptions centrally.
- ✓ Deploy, configure, and manage your PRISMA cloud application and tools.
- ✓ Store and back up jobs and data with confidence in PRISMA cloud storage.
- ✓ Available anywhere, anytime from your smartphone, laptop, or other suitable device, with limited IT effort.
- ✓ Easy to use and access.
